

LET'S TALK CREATION

Episode 132: Todd and Paul's Jumbo Q &A Part 2

It's been more than a year since we answered some of your questions, so let's get back to it! We've collected questions from YouTube comments, emails, and other social media, and Todd and Paul try to answer as many as they can in one episode (which turns out to be not very many). They cover limestone formation, endogenous retroviruses, the timing of the ice age, snake venom composition, animal migration after the Flood, and cryptozoology. All that and Paul's new office in the latest episode of Let's Talk Creation!
